

## **BUG SPRAY AND SUNSCREEN FORM**

Due to our time outside on the playground we wish to have all children safe from both the UV rays from the sun and ticks that can be out on the playground. In an event that the Staff find it necessary to apply either Sunscreen or Bug Spray to the children before playing please mark on the following lines your approval/disapproval.

If specific bug spray or sunscreen works best for your child please add to your child's backpack to have on hand while on the playground.
