RE: Carbondale New School
3 Year Re-inspection

Dear Ms. Rohling:

Farmer Environmental Services, LLC completed an AHERA three-year re-inspection of the Carbondale New School. One copy of the report has been inserted into the book and another copy is following this letter.

All noted materials were found to be in good condition. Please continue to follow the Operations and Maintenance Plan.

There will be no charge for these services.

If you have any questions or need additional information please call us at 618-656-6988.

Respectfully Submitted,

Wynter Farmer

TABLE OF CONTENTS

SECTION

- I. Introduction

AHERA THREE YEAR REINSPECTION

- II. Summary of Findings
Inspectors Reassessments
Management Planner Response Actions
- III. IDPH School Information Forms
- IV. Licenses and Accreditations

I. INTRODUCTION

Under the Asbestos Hazard Emergency Response Act (AHERA), the Environmental Protection Agency (EPA) requires that each school district perform a Three Year Reinspection on all known or assumed Asbestos Containing Materials (ACM) to determine the condition of the materials and if applicable, revise any assessments and Response Actions that are needed for each identified material.

This Reinspection is intended to be a working document, which will serve as a guide to the Local Education Agency (LEA) and their respective designated persons concerning the asbestos control program at each school building. The report findings and comments are various aspects of the AHERA rules and shall be acknowledged by the LEA and the designated person in order to upgrade the asbestos control program within each school district.

This Reinspection Report includes information obtained by a thorough review of all documents on file in the School Districts Asbestos Control Program files. Farmer Environmental Services cannot take responsibility for lack of any information based on incomplete records.

Asbestos Containing materials may not have been included within the Report due to unforeseen circumstances such as materials being located behind walls, under floors, or inaccessible areas of the building.

This Plan has been reviewed by the LEA and the Designated Person and they recognize and are aware of the policies and procedures to be implemented with respect to any ACM known or assumed within this facility. The School District hereby accepts responsibility of fulfilling any and all responsibilities concerning the findings within the Report and shall continue to adhere to AHERA rules and regulations.

Date of Reinspection: August 15, 2007

Owner: Carbondale New School

Building: Carbondale New School

LEA Representative: _____ Date: _____

Designated Person: _____ Date: _____

Management Planner: Eric Colombo Date: 8-15-07

Inspector: Eric Colombo Date: 8-15-07

Facility Letterhead

Date , 2006

Dear Parent/Employee:

The building(s) of (facility name and address) has (have) been inspected for asbestos-containing building materials by a licensed inspector. In addition, as Asbestos Management Plan has been prepared by a licensed Management Planner. The Inspection Report and management Plan are on file in the facility office and are available for public review during business hours.

The reports state that asbestos-containing materials have (have not) been found. The condition and type of the asbestos are shown in the individual reports.

Copies of these reports are available upon notification of the facility administrator and payment of a fee to cover copying costs.

Sincerely,

Individual's Name
Designated Person

****NOTE: MAINTAIN THIS REOCDR INDEFINITELY. ATTACH TO THE MANAGEMENT PLAN.**
