School: Carbondale New School  
Address: 1302 E. Pleasant Hill Rd. Carbondale,  
IL 62902  
Contact/Phone: Amanda Sheridan/618-457-4765  
FES# 1308-467  
Date of Re-Inspection: August 27, 2013

### A. INTRODUCTION

#### 1.0 GENERAL INFORMATION

In accordance with the Environmental Protection Agency's (EPA's) Asbestos Hazard Emergency Response Act (AHERA) 40 CFR 763.85(b), at least once every three years from the implementation of a school's initial Asbestos Inspection and Management Plan, a Reinspection is required to be completed. The reinspection must be completed by an EPA/AHERA Accredited, Illinois Department of Public Health licensed asbestos inspector.

#### 2.0 INSPECTOR RESPONSIBILITIES

- a. As part of the Reinspection, the inspector shall complete all requirements of AHERA Section 763.85(b) including:
  - Visually reinspecting, and reassessing the condition of all friable known or assumed ACM.
  - Visually inspecting material that was previously considered non-friable ACM and touch the material to determine whether it has become friable since the last inspection or reinspection.
  - Identifying any homogeneous areas with material that has become friable since the last inspection or reinspection,
  - For each homogeneous area of newly friable material that is already assumed to be ACM, collect bulk samples and submit for analysis. Record exact locations where samples are collected and include name, accreditation number and signature of inspector.
  - Assessing the condition of the newly friable material in areas where samples are collected, and newly friable materials in areas that are assumed to be ACM
  - Reassessing the condition of friable known or assumed ACM previously identified
  - Submitting a copy of the Reinspection Report to the LEA and review findings with the Designated Person.
- b. This Reinspection report is intended to document the change in conditions of known or assumed ACM within the building(s) since the previous Three Year Reinspection. This report has been reviewed by the LEA and the Designated Person and they have been informed of the policies and procedures to be implemented with respect to any ACM known or assumed within this facility.
- c. The following AHERA Categories were used in determining the Inspectors Assessment / Reassessment of the known or assumed asbestos containing materials located in the building:
  1. Damaged or Significantly Damaged thermal system insulation ACM
  2. Damaged friable surfacing ACM
  3. Significantly damaged friable surfacing ACM
  4. Damaged or significantly damaged friable miscellaneous ACM
  5. ACBM with potential for damage
  6. ACBM with potential for significant damage
  7. Any remaining friable ACBM or friable suspected ACBM
  8. N/A – Material is non-friable

## AHERA THREE YEAR REINSPECTION

LEA: Carbondale CHSD # 165  
School: Carbondale New School  
Address: 1302 E. Pleasant Hill Rd. Carbondale,  
IL 62902  
Contact/Phone: Amanda Sheridan/618-457-4765  
FES# 1308-467  
Date of Re-Inspection: August 27, 2013

### 3.0 PREVIOUSLY UNIDENTIFIED SUSPECT ASBESTOS CONTAINING MATERIALS

When applicable, the Management Plan(s) may not include suspect asbestos containing materials that have since been identified or have been identified during the Three Year Reinspection. These materials may include, interior boiler materials (fire brick, boiler linings), fire rated door linings, chalkboards and adhesives, wall base adhesives, floor tile mastics, gypsum board (tape and compounds), sheet flooring and adhesives, exterior walkways or porticos, etc. The previously unidentified materials are required to be properly identified, assessed, quantified, and implemented into the LEA's Management Plan. Unless otherwise sampled, these materials shall be assumed to contain asbestos until sampled and otherwise analyzed as no asbestos detected. This also applies to materials that are inaccessible and/or unforeseen during routine inspections. Although not required as part of the Three Year Reinspection, it is the LEA's Responsibility that these materials be included in the Management Plan.

### 1.0 MANAGEMENT PLANNER RESPONSIBILITIES

- a. Once the Reinspection has been completed by the inspector, an EPA/AHERA accredited, IDPH licensed Management Planner is required to review the inspectors findings and make any necessary revisions, if applicable, to response actions. A Response Action is defined as appropriate action that the LEA should take regarding a known or assumed asbestos containing material. Response Actions are required for all thermal system insulations and friable surfacing or miscellaneous materials that are located in a building.

### 5.0 FEDERAL REQUIREMENTS UNDER EPA NESHAP REGULATIONS

The asbestos National Emission Standards for Hazardous Air Pollutants" of NESHAP is a federal regulation promulgated by the US Environmental Protection Agency (EPA) that applies to schools and other facilities. In accordance with EPA NESHAP Requirements, an asbestos inspection is required prior to any building material that may be impacted prior to renovation or demolition activities. The inspection includes those materials not recognized under "Asbestos Containing Materials in Schools". Examples primarily include "exterior" building materials such as roofing materials, fascia/soffit materials, window caulking and/or glazing, door frame sealants, etc. These materials are to be assumed to contain asbestos until sampled and verified otherwise.

### 6.0 COMMENTS:

- a. This report constitutes the understanding between Farmer Environmental Services, LLC, the owner and/or owners representative as to the actual scope of the work completed. The findings and conclusions incorporated in this report are for informational purposes only. It is the responsibility of the owner, owners representative and/or those working under the jurisdiction of the owner or owners representative to abide by all governing rules and regulations in regards to additional asbestos related work that may be further completed (i.e. asbestos abatement, asbestos design, submittals and notifications, removal, disposal, means, methods, techniques, or work procedures that is above and beyond the inspection and sampling phases) completed by Farmer Environmental Services, LLC.
- b. This report is solely to be used for reference purposes only as to the identification, location, findings and recommendations and is not to be used for asbestos design purposes.

Date of Re-Inspection: August 27, 2013

### B. REINSPECTION SUMMARY

#### 1. LEA AND BUILDING INFORMATION:

Building Name: Carbondale New School  
1302 East Pleasant Hill Road  
Carbondale, Illinois, 62902

IDPH Building ID #: 30-039-1400-004X

Local Education Agency: Carbondale CHSD # 165  
1301 East Walnut Street  
Carbondale, Illinois, 63901

Administrator: Amanda Sheridan  
LEA Designated Person: Amanda Sheridan

#### 2. AHERA THREE YEAR REINSPECTION INFORMATION

Date of Reinspection: August 27, 2013

Inspector: Eric Colombo, IDPH License #:100-09404  
Farmer Environmental Services, LLC  
108 Emerald Hills  
Edwardsville, Illinois 62025

Management Planner: Eric Colombo, IDPH License #:100-09404  
Farmer Environmental Services, LLC  
108 Emerald Hills  
Edwardsville, Illinois 62025

3. SAMPLING: Number of samples collected during the Reinspection: 0

### C. SUMMARY OF FINDINGS

(known or assumed asbestos containing materials located in the building)

Area ID	Description of Material	Location of Material	Quantity	Contains Asbestos (Yes / No / Assumed)	Comments:
<b>CARBONDALE NEW SCHOOL – MAIN BUILDING</b>					
01-001	DRYWALL – CEILINGS & WALLS (WHITE)	ROOMS 4-6, 9-16, 18-20, & 22	9, 852 SQ. FT.	NO 3 NAD	JOINT COMPOUND NOT SAMPLED OR ANALYZED. WILL ADD JOINT COMPOUND TO MANAGEMENT PLAN. THIS MATERIAL CAN BE LEFT OUT.
01-002	NOT USED				
01-003	LINOLEUM (GOLD PEBBLE)	ROOMS 5, 6, & 9	576 SQ. FT.	YES 1 ACM	LINOLEUM HAS BEEN REMOVED & REPLACED BY FLOOR TILE. CERAMIC TILE & ANOTHER LINOLEUM POSSIBLY COULD HAVE JUST BEEN COVERED UP.
01-004	12" X 12" FLOOR TILE (WHITE W/ BEIGE FLECK & WHITE W/ GREY FLECK)	ROOMS 11-12, & 19	454 SQ. FT.	ASSUMED (PLM WAS NAD)	RECOMMENDED TEM SAMPLE & ASSUMING MATERIAL IS ACM UNTIL TEM.
01-005	12" X 12" CEILING TILE UNIFORM HOLES (WHITE)	ROOM 15 (LUNCH ROOM CLOSET)	49 SQ. FT.	NO 3 NAD	CEILING TILE MASTIC ASSUMED (01-012)
01-006	12" X 12" FLOOR TILE (GREEN PEBBLE)	ROOM 17 (KITCHEN)	132 SQ. FT.	ASSUMED	
01-007	LINOLEUM ADHESIVE (UNKNOWN COLOR)	ROOMS 5, 6, & 9	576 SQ. FT.	ASSUMED	LINOLEUM REMOVED FROM ROOMS 5,6, & 9 POSSIBLY JUST COVERED UP. ASSUMING THIS MASTIC REMAINS
01-008	FLOOR TILE ADHESIVE FOR 004 & 006 (UNKNOWN COLOR)	ROOMS 11, 12, 17, & 19	586 SQ. FT.	ASSUMED	
01-009	CARPET ADHESIVE (UNKNOWN COLOR)	ROOMS 9, 10, 11, 16, & 19	1, 462 SQ. FT.	ASSUMED	ORIGINAL MANAGEMENT PLAN CARPET REMOVED AT SOME TIME. MASTIC MAY STILL BE UNDER FLOOR TILE.
01-010	FIRE DOORS (UNKNOWN COLOR)	ALL DOORS	ALL DOORS	ASSUMED	
01-011	BASEBOARD ADHESIVE (UNKNOWN COLOR)	ROOMS 5 & 6	144 SQ. FT.	ASSUMED	COVE BASE REMOVED & REPLACED W/ DIFFERENT BASES.
01-012	CEILING TILE ADHESIVE FOR 01-005 (UNKNOWN COLOR)	ROOM 15 (LUNCH ROOM CLOSET)	49 SQ. FT.	ASSUMED	ASSUMED THIS MASTIC STILL REMAINS.

# AHERA THREE YEAR REINSPECTION

LEA: Carbondale CHSD # 165  
School: Carbondale New School  
Address: 1302 E. Pleasant Hill Rd. Carbondale,  
IL 62902  
Contact/Phone: Amanda Sheridan/618-457-4765  
FES# 1308-467  
Date of Re-Inspection: August 27, 2013

**MATERIAL CONDITION:**

No Damage (Good) - the material is in overall good condition with minor damage present.  
Damaged - the material contains less than 10% distributed 25% localized damage.  
Significant Damaged - the material contains more than 10% distributed or 25% localized damage.

**INSPECTORS ASSESSMENT NUMBER**

1. Damaged or Significantly Damaged thermal system insulation
2. Damaged friable surfacing ACM
3. Significantly damaged friable surfacing ACM
4. Damaged or significantly damaged friable miscellaneous ACM
5. ACBM with potential for damage
6. ACBM with potential for significant damage
7. Any remaining friable ACBM or friable suspected ACBM

Eric Colombo, Inspector, IDPH ID #100-09404

**HAZARD POTENTIAL CLASSIFICATION**

Rank	ACBM Condition	ACBM Disturbance Potential
1	Significantly Damaged	Any
2	Damaged	Potential for Significant Damage
3	Damaged	Potential for Damage
4	Damaged	Low
5	Good	Potential for Significant Damage
6	Good	Potential for Damage
7	Good	Low

**NOTE**

In accordance with AHERA Rules and Regulations, all Thermal System Insulation shall be in an intact and undamaged condition.

Eric Colombo, Management Planner, IDPH ID #100-09404

Date:

LEA: Carbondale CHSD # 165  
School: Carbondale New School  
Address: 1302 E. Pleasant Hill Rd. Carbondale,

FES# 1308-467  
Date of Re-Inspection: August 27, 2013

**MANAGEMENT PLANNER RESPONSE ACTION RECOMMENDATIONS  
(Response Action Hazard Ranking)**

1. SIGNIFICANTLY DAMAGED THERMAL SYSTEM INSULATION(S) – Immediately isolate the functional space(s) where significant damage is present and restrict access to protect human health and environment. At least repair damaged area(s) to maintain coverings in an intact state and undamaged condition. Remove damaged material, if not feasible due to factors to repair the damage.
1. SIGNIFICANTLY DAMAGED SURFACING and MISCELLANEOUS MATERIAL(S) – Immediately isolate the functional space(s) and restrict access. Remove damaged materials unless other means are sufficient to contain fibers (enclosure or encapsulation).
2. DAMAGED SURFACING or MISCELLANEOUS MATERIALS - Isolate the functional space(s) until further Response Action is completed (repair, removal, enclosure, encapsulation). Take preventive measures to reduce potential for significant damage.
3. DAMAGE MATERIAL (with potential for Significant Damage) – Repair, remove, enclose or encapsulate damaged material. Institute preventive measures to eliminate likelihood that material will be significantly damaged, deteriorated, or delaminated.
4. DAMAGED MATERIAL (with Potential for Damage) - Take preventive measures to reduce potential for damage (repair, removal, enclosure, encapsulation). Institute preventive measures to eliminate likelihood that material will be significantly damaged, deteriorated, or delaminated.
5. NO DAMAGE - Take preventive measures to reduce disturbance and potential for damage.
6. NO DAMAGE - Take preventive measures to reduce disturbance and potential for significant damage.
7. NO DAMAGE - Maintain friable materials in good condition and continue under O & M program until hazard assessment factors change.
8. NON-FRIABLE MATERIAL – Maintain material(s) in good condition and continue O & M Program until hazard assessment factors change.

NOTE: Repair and/or removal of ACM is required to be completed by licensed personnel.

**G. LICENSES AND ACCREDITATIONS**

**ACCREDITATION OF BUILDING INSPECTOR**

I certify that I conducted the required AHERA Three Year Reinspection for the building included within this report. Furthermore, I have examined the condition of each known or assumed Asbestos Containing Material within the building and have determined whether the material has changed since the last Reinspection. When applicable, I have reassessed the condition of each material and have reviewed the findings of the reinspection with a licensed Management Planner.

Inspector:

Eric Colombo, IDPH License #100-09404

**ACCREDITATION OF MANAGEMENT PLANNER**

I certify that I have reviewed the results of the inspectors findings and have revised any response actions necessary to update revisions were necessary. Furthermore, where applicable, I have made necessary amendments to the Management Plan and have included such amendments in this Reinspection Report.

Management Planner:

Eric Colombo, IDPH License #100-09404

**DESIGNATED PERSON COMPLIANCE STATEMENT**

I here-by certify that the AHERA Three Year Reinspection was conducted in accordance with AHERA Rules and Regulations (763.85).
