

May 15, 2018

Dear Upper School Students and Parents,

Thank you so much to all of you for making our open house such a success. The students did some amazing work on their research projects. The displays were impressive and we were all so very proud of them. The students and many parents and staff also worked extra hard to ensure that our school looked its best inside and outside. Thank you so very much.

This week we are tying up some loose ends and starting to work on assessments to get all the grade reports out next week. I want to remind everyone that reading and writing are very important foundations to our whole curriculum and are used even in math.

One more reminder about our registration deadline for the 5% discount on tuition is close approaching. Your student needs to be registered by May 25 to take advantage of this discount. Be sure to stop by the office if you are interested in working a rebate next year or would like to apply for financial aid. Only students who are registered will be considered.

I am attending a conference in St. Louis on Thursday and I will not be in the classroom that day or tomorrow afternoon. That means that the classroom will probably not be open until after 8:00 when Annie arrives.

Best wishes,

Carla

Upcoming Events

Thursday, May 24: Graduation at 3:00 at school
