We had a lot of fun learning about different ways to take care of the environment this week! The favorite activity was going on our nature scavenger hunt! All of the students walked around the playground to see what we could find in nature. We also planted sunflower seeds in recycled milk cartons so we will be patiently waiting for those to sprout! Number recognition and name writing was another big focus this week, the students are quickly improving with both.

Next week we will be learning about the letter Ff and we will be talking about life on a farm. We will graph our favorite farm animals, practice our counting with animal crackers, read a variety of animal books, and make different farm animal crafts. We also will practice writing the letter Ff and work on the number 6.

Weekend Homework:

We can definitely tell who has been doing the weekend homework! It's wonderful to see the kids excited about excelling at a certain skill. With the weather quickly cooling off we would like for you to work with your child on putting on and zipping their jackets as well as putting on different types of shoes.

Reminders:

This coming Wednesday is Wacky Wednesday! Melissa and I will be going all out with Halloween themed wacky outfits - not costumes. We cannot wait to see what outfits all of the kids choose! We also have a half day of school next Friday, October 6th. There will be childcare provided.

Enjoy the beautiful weather this weekend!

Miss Jennipher and Mrs. Melissa
