

Friday, October 13, 2017

We have a class full of fire safety experts this week! Ask your child how to stay safe if there is a fire - they can give you a lot of tips! Huge thank you to the Carbondale Township Fire Department for coming in and teaching the kids about fire safety. They loved seeing the fire truck, they even all got a chance to sit in it and honk the horn - SO COOL!

Next week we will be learning the letter Gg, the number 7, and talking about Ghosts and Goblins. We're going to do some fun crafts so our room can be decorated for Oktoberfest! Three year olds will be working on name recognition and writing, number recognition, and counting. Four year olds will continue with simple addition and letter sounds. Kindergarten will continue with the subtraction unit and writing sentences.

Weekend Homework:

The students all did a wonderful job during our fire drill at school, so this weekend we want you to practice having a fire drill at home. It's important to have a safe meeting place outside in case of an emergency. We also need you to have your child practice putting on jackets. The weather is getting cooler and every student needs to know how to put on his or her own jacket.

Reminders:

We have our first field trip planned! Be sure to send back the permission slip along with \$4 by October 23rd. They can be given to the office or to one of us. Please bring in warmer clothes for the extra clothes bags at school.

Happy Friday!!

Miss Jennipher and Mrs. Melissa
