

Friday, April 20, 2018

Happy Friday! The students came up with some different topics they wanted to focus on for the the rest of the school year so this week we talked about space. We wrote a story about discovering a new planet, learned the order of the planets, and made rocket ships!

Next week we will be working in our garden and doing other planting activities. We are super excited to plant our veggies! We will also be tracking the growth of lima bean sprouts, making seed mosaics, and talking about pollination.

Weekend Homework:

Volunteer to work an activity at Locally Grown!

Reminders:

Locally Grown is tomorrow from 3-7. Invite all your friends and family! Mrs. Melissa and I will be working the welcome booth, be sure to stop by and see us to grab your wristbands so you can participate in all of the fun activities!

We are planning a spring cleaning day for Saturday, May 5th in order to get ready for open house! We will need help deep cleaning our classroom as well as the main building and the playground. If you would like to donate your time to help clean but are not available that day please let us know so we can find another time. These are both great ways to earn service hours!

Have an fabulous weekend!

Miss Jennipher and Mrs. Melissa
