Happy Friday! The kids all helped plant flowers today to spruce up our school for the Open House. We have been working on some fun art projects to have on display as well. The kids really loved finding different objects in the arboretum to make nature paintbrushes this week, they were really cool!

Next week we will continue doing some end of the year review as well as work on assessments for the last trimester. The school year is quickly coming to an end so we have been doing a lot of fun group activities in class.

Weekend Homework:

We have been having many discussions on using kind words and voices with our friends. Many of the kids have been having a difficult time sharing, talking nicely with each other, and problem solving. Please talk with your child this weekend about how we can be kind to others and discuss practical ways to solve an argument between friends. We have a really close group of kids and we don't want to end the year with hurt feelings!
