Spelling test 08/27/2021

Spelling Words: west, steep, member, gleam, fresh, freedom, speed, steam, beast, believe, speck, kept, cheap, pretend, greed, shelf, least, eager, reason, chief

Science:

Both Grades will be starting a mass/density Unit. We covered Newton's Laws of Motion in our first week. Mass and Density were introduced by gathering different objects from the classroom and outside, making predictions on which ones they thought would weigh more, weighing the various objects on balance scales, and making observations. This first half of the year we will do Physical Science and then switch to Social Studies during the second half.

STEM: The kids have all expressed and interest in learning to code. I hope to have a coding program up and running in a couple weeks.

I am setting up various enrichment centers, and ELA task enrichment centers around the classroom. In any downtime the kids can go to these centers and complete the various research projects and "tasks". They will earn points and be able to use them for rewards such as extra free time, extra class pet time (they are researching and voting on a pet), and other rewards.

Calendar of Events

August 23: Board Meeting

Classroom Wish List: pocket folders, binders, sheet protectors, 5 mil laminating sheets.
