Science:

We are studying wave properties!

STEM: I am planning to start the coding program by October!

New: We have started using Splash Learn and Generation Genius in class. Splash Learn will help to advance their math skills in a fun game format and so far they really seem to enjoy it! We are also using Club Ed for typing and extra spelling and vocabulary practice. With Generation Genius they watch fun videos that explain our topics. We then have discussion questions, vocabulary, and take fun interactive competitive quiz game together in class. We had a blast doing this this week!
