## **Science:** Electromagnetic spectrum

**STEM:** We piloted the coding program last week through Studio Code. This is not just a coding program but a comprehensive computer science program. They started out with the basics last week on course “C”. This week we move on to Course “D” which will take them through a review then algorithms, nested loops, while loops, and conditionals.

We will also be completing the programs Digital Citizen program which teaches how to be a good digital citizen.
