

**ELA Project Due 12/17!**- each student has chosen an idiom and will model the idiom to see if other students, teachers, and parents can guess the idiom. These will be on display for conferences to view. Students may choose any material to model the idiom as long as it is not drawn. Toys (legos, blocks, figures), Clay, or any other material is fine as long as it is a 3D model. For example, “Grab the bull by the horns” could be modeled with toys, or even figures built out of clay or foil. “A fish out of water” could be demonstrated with a fish (Nemo?) laying next to a bowl of water. Anything goes!

### **Math: Go Math**

Third Grade: Chapter 7, Division Facts and Strategies
